

PIACT legislative update—March 18, 2009

Pursuant to the joint rules of the Connecticut General Assembly and the deadlines established therein, the Insurance and Real Estate Committee will no longer be considering new bills and reporting bills out. Thus, this week marks the first week of the rest of the session which will not be marked by Insurance and Real Estate Committee meetings and hearings.

Accordingly, activity will be centered on informal meetings to prepare amendments to bills already passed. These amendments are generally focused on resolving questions about bills raised during the hearing and committee meeting process. The modifications are prepared now in order to be advanced as amendments introduced at the time of the floor vote.

Be sure to check back to track the progress of bills of interest to PIACT as they continue their progress through the legislative process.
